Subject: Enterprise Update
Date: Wednesday, February 01, 2017 7:39:00 PM

Enterprise continued to recover free product along the discharge area. A vehicle accident occurred during operations and two Enterprise employees were sent to the hospital. Work was stopped and reconvened approximately three hours after the incident. EPA and the TRRC met with Enterprise and agreed to the Incident Action Plan, and agreed with the Weather Contingency Plan. The Weather Contingency Plan was implemented. Soil excavation operations are scheduled to begin on Thursday. The damaged pipe was excavated and a clamp was applied. The pipeline should be repaired by next Monday. PHMSA demobilized.
